Supply Chain Management Procurement Module

The Aidmatrix Network® Procurement Module is an online application used to organize the purchasing of products and services for your humanitarian relief efforts. This module enables you to consolidate your ordering, provide a complete purchasing history and work in real-time with your suppliers. Use this information to empower yourself and your partners to consolidate your purchasing in order to negotiate discounted rates from suppliers saving time, resources and money. It integrates easily with other modules to provide simple end-to-end purchasing and inventory management.

- **Set Up and Publish a Catalog of Goods**

This web-based tool enables you to create a catalog of goods from which you and your partners can shop. Include details such as product descriptions, SKUs, units of measure, expiration dates, average wholesale price, your discounted price, and supplier name.

- **Supports Multiple Product Vendors' Catalogs**

Integrate this tool with your vendors' online catalogs so that merchandise updates are quickly visible. It supports adding multiple vendor catalogs and integrating them into a consolidated view of available products.

- **Shoppers Review Available Products**

You and your partners log in and view available products. Compare prices from different vendors along with product details and select the items best suited to your needs. A customizable homepage enables you to display quick reference information (i.e. vendor phone numbers, processes etc.), in order to quickly address questions that arise during the procurement process.

- **Easy Shopping Cart & Checkout**

Point and click shopping cart features work quickly and easily using standard icons and functions. Select the items you wish to purchase, put them in your shopping cart and proceed to checkout. Tool calculates shipping, handling and tax and issues an immediate receipt. Supports multiple live order formats to deliver the order to your supplier instantly, including xml and email.

- **Track Order History**

The real-time reporting enables you to pull up your order history at any time. Use this report to help better understand your purchasing patterns and to optimize them. Knowing how much you spend on a recurring basis helps you better negotiate discounted rates with suppliers.

- **Save Favorites**

Do you have items that you purchase every month? Save them to your favorites for easy access each time you log in. Then simply add them to your shopping cart and complete your purchase with ease.

- **Aggregate Purchasing Power for Maximum Benefit**

Consolidate your purchasing with other offices/partners. Use the order history feature to report on your combined purchases and then use that information with your suppliers to negotiate better pricing.

PARTNERSHIP

Joining the Aidmatrix Network means you have a wealth of resources at your disposal. Aidmatrix provides program resources to make sure your program succeeds. A community of relief agencies, governments and corporate partners offers collective knowledge of best practices and practical solutions — meaning you are never in it alone.

TECHNICAL SUPPORT

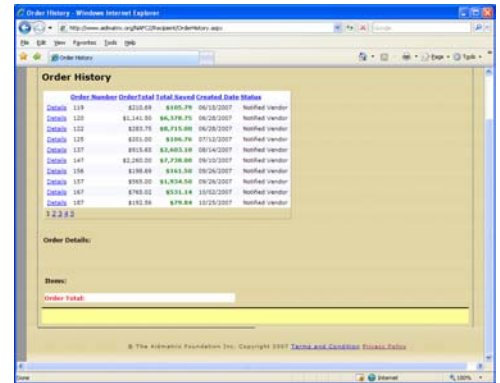

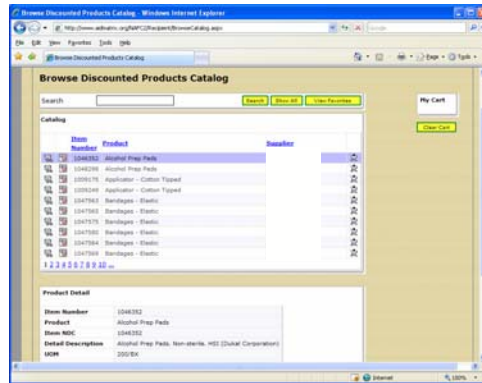

Whether it be a training question or help with activating during a disaster — we are here to help. Our mission is to empower your team to maximize the humanitarian relief available to those in need.

TURN-KEY SOLUTIONS

We offer this service as a hosted application, so there is no hardware to maintain and no IT staff to hire.

For more information on any of our products or services please visit us on the Web at:

Technical Architecture

Core Modules — built on Microsoft Visual Basic® .NET and SQL Server® database technology

Delivery Method — Software-as-a- Service (SaaS) mode

Accessible from Any Web Browser — end users need only an Internet connection and a web-browser to begin using the system; nothing to install or set up; enables you to easily share reports with others

Proof in Action

Winner — Council of Supply Chain Management Professionals (CSCMP) 2007 Supply Chain Innovation Award for technology and program in cooperation with the National Association of Free Clinics (NAFC) on the FreeClinicLink™ program.

Winner — Center for Nonprofit Management “Innovation in Action” Award for technology and program in cooperation with the National Association of Free Clinics (NAFC) on the FreeClinicLink™ program.
