## Supply Chain Management Fleet Management Module

The Aidmatrix Network® Fleet Management Module is an online application that helps you manage automotive assets used in your humanitarian relief efforts. By tracking service records, fleet assignments and maintenance costs you can do comparative analysis to better identify cost-savings opportunities and ensure capital is used in the most efficient way.

- **Easily Enter New Vehicles Into Inventory**  
As you acquire new vehicles, simply use the online entry form to capture all the identifying characteristics of the vehicle for your inventory. Log acquisition date, fleet assignment, chassis/engine/registration numbers, cost, year/make/model, designation, vehicle type, fuel type, tank capacity and more. Then, view the full inventory in real-time, on-demand.
- **Manage Main and Sub Fleets**  
Organize your vehicles into main and sub fleets. View vehicles by main and sub fleet totals: owned, leased, fleet administrators, etc.
- **Point and Click Reporting**  
Use the Fleet Inventory Report and Vehicle Report to pull all the details on your automotive assets. Reporting can be run on all aspects of the application. Export reports to Microsoft Excel® for integration with other systems or for data sharing purposes. Do comparative reporting by country for: repair rates, mileage, utilization, kilometers per liter / miles per gallon and more.  
  
Reporting is an effective tool to aggregate usage, needs and determine the effectiveness of existing programs. With point and click reporting, you can take care of your administrative responsibilities with minimal impact on your time thus enabling you to focus more energy on the relief work at hand.
- **Track Service Information and Odometer Readings**  
Use this tool to track dates of service, cost, specific service-related comments, odometer readings and dates. All of this information is cataloged so that you can pull up reports on-demand to prepare planned service schedules and to make informed decisions regarding budgets for annual maintenance, replacement schedules and more.

## PARTNERSHIP

Joining the Aidmatrix Network means you have a wealth of resources at your disposal. A community of relief agencies, governments and corporate partners offers collective knowledge of best practices and practical solutions — meaning you are never in it alone.

## TECHNICAL SUPPORT

Whether it be a training question or help with activating during a disaster — we are here to help. Our mission is to empower your team to maximize the disaster relief available to those in need.

## TURN-KEY SOLUTIONS

We offer this service as a hosted application, so there is no hardware to maintain and no IT staff to hire.

For more information on any of our products or services please visit us on the Web at: [www.aidmatrix.org](http://www.aidmatrix.org)

## Technical Architecture

**Core Modules** — Built on Microsoft Visual Basic® .NET and SQL Server® database technology

**Delivery Method** — Software-as-a- Service (SaaS) mode

**Accessible from Any Web Browser** — End users need only an Internet connection and a web-browser to begin using the system; nothing to install or set up; enables you to easily share reports with others

## SERVICES INCLUDED

- Technical Support
- Setup
- Maintenance
- Application Support
- Hardware Support
- O/S Support
- Data Backup
- System Monitoring
- Security Monitoring
- 24x7 Uptime
